Taqua

Pure filtered water direct from the tap

Add a Taqua in-tap water filter for style, functionality and a real point-of-difference.

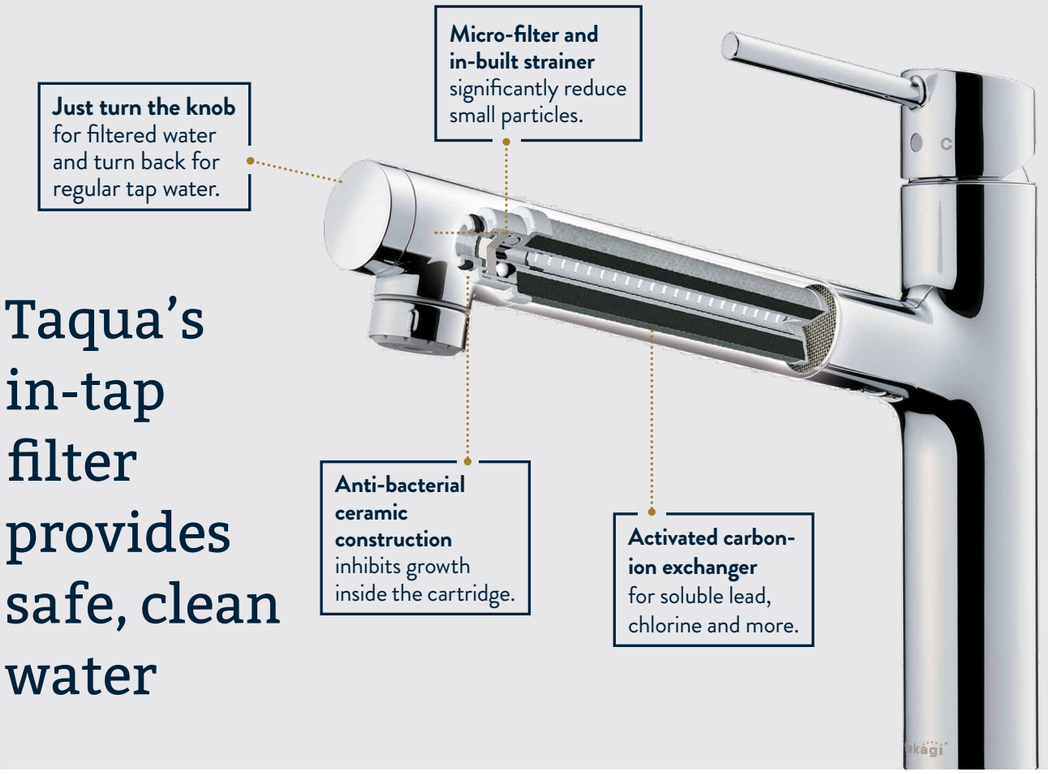
NO.1 IN JAPAN

Tap into the future today

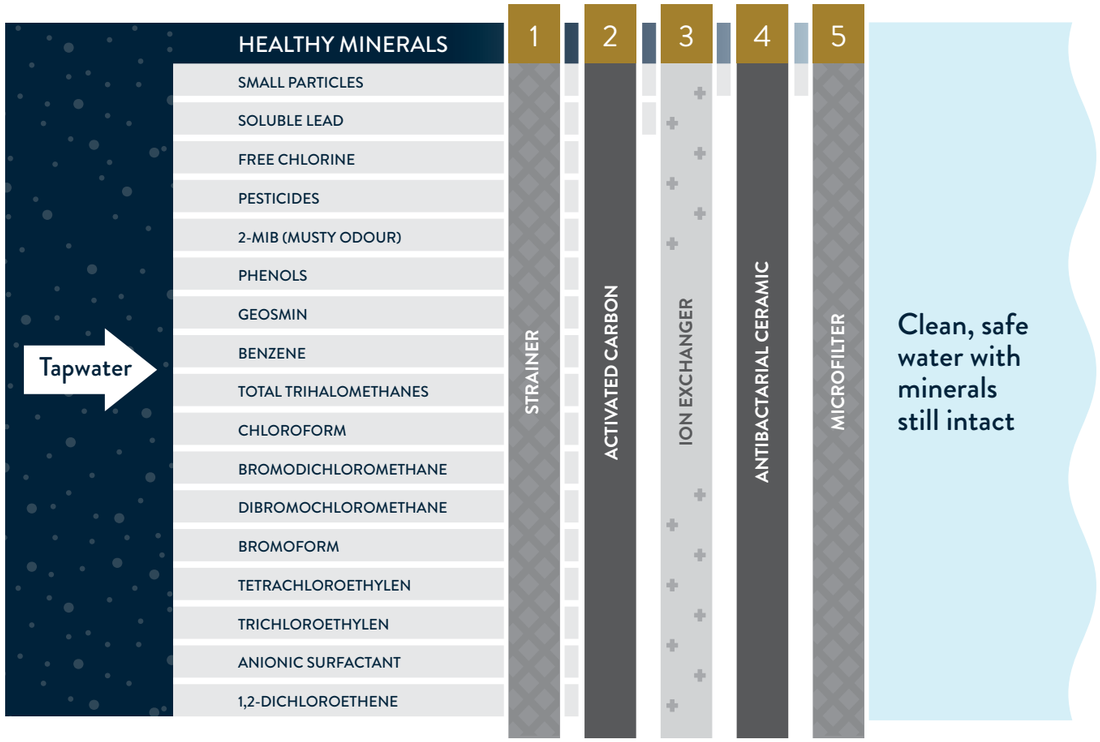
Taqua is Japan's #1 water filter and is precision-made in Japan to the highest standards. Now in Australia, Taqua is being increasingly chosen for its great tasting water and its convenience too.

Taqua taps offer filtered water, shower function/veggie-spray and a pull-out hose, yet the plumbing installs as easily as a conventional sink mixer. Plus the high quality Japanese made flexible hose minimises the risk of water leakage, damage and claims in the future.

Taqua's in-tap filter provides safe, clean water



HOW TAQUA WORKS



Note: Premium cartridge filtering shown. Different substances are filtered depending on the cartridge type used. Based on Japanese Industrial Standard JIS S 3201.

TAQUA IS MAKING A DIFFERENCE IN THE HOME

"When you've got young kids, you want to give them the cleanest water possible. The built-in water filter tap doesn't take up any extra space in the kitchen, and replacing the cartridge is so easy."
- Melinda (39)

"Everyone knows filtered water tastes better than normal tap water, but you can actually taste the difference in cooking as well. I also love that we could take it with us and keep using it after we moved to a new house."
- Tim (46)

NICHOLAS GURNEY
INTERIOR DESIGNER / ARCHITECT

" I enjoy the Japanese precision evident in Taqua products. A client's decision is not based on material finish or styling, it's function-driven and clients are pleased to know they have installed a Japanese best-seller in their home. The outstanding piece of ingenuity has been combining tap and filtration in a single unit, and importantly, doing so in a manner that is neatly concealed."

Why your clients will love having Taqua in-tap water filtering

- Switch from filtered water to tap water by just turning the knob.
- Filter provides the healthiest water for children's developing immune systems.
- Easy food-prep and cleaning with the handy spray nozzle and extendable hose.
- Sophisticated, minimalist design fits seamlessly into any modern kitchen.
- Save space in the kitchen – no need for bulky tanks or underneath sink filters.

FREE UPGRADE TO A 5-YEAR EXTENDED WARRANTY

Once your client has their new Taqua installed and ready to use, they can extend Taqua's standard two-year warranty to five years at no cost, by simply registering their details on the Taqua website: www.taqua.com.au

They choose the filter cartridge they want

Taqua's filter cartridges are precision-made in Japan. They're designed to significantly reduce the level of toxic compounds, carbon taint and nasty odours from water enjoyed at home – direct from the tap.

Filter type	Substances filtered*	Flow rate	Capacity	Cost per cartridge
Standard	7 (chlorine, pesticides, lead, musty odours, phenols, geosmin, and benzene)	4 Ltr / min	1,200 Ltr	$40 + GST (postage incl)
Premium	16 (as above plus a range of industrial solvents and organic compounds)	3 Ltr / min	1,200 Ltr	$45 + GST (postage incl)

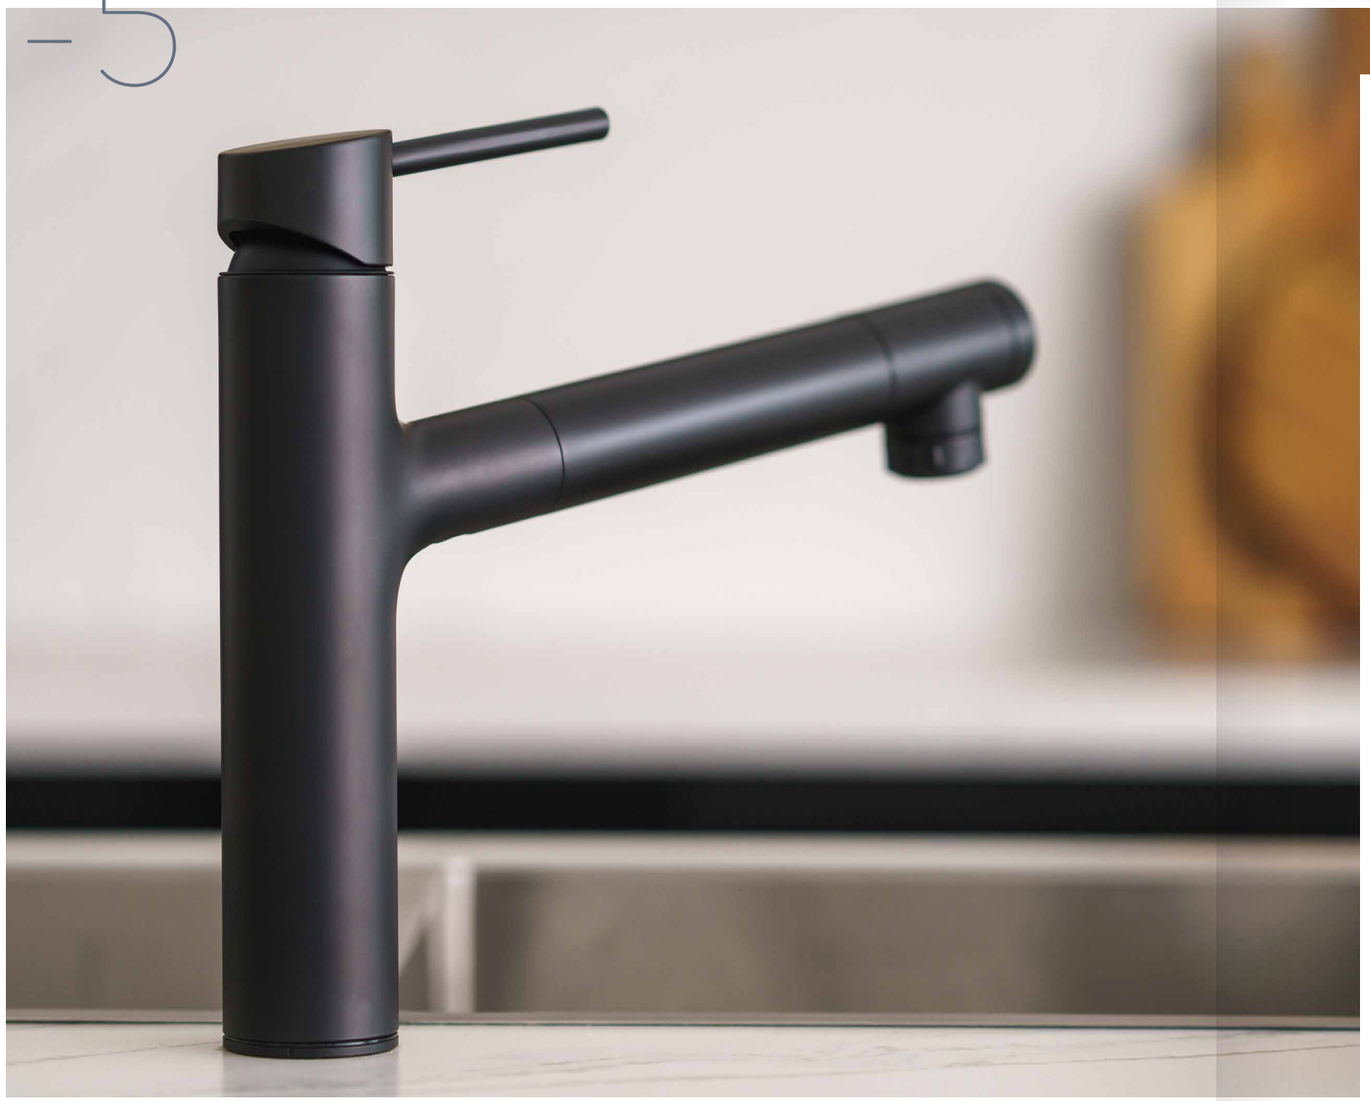
*Based on Japanese Industrial Standard JIS S 3201.

ENJOY FILTERED WATER WHENEVER THEY WANT

We recommend replacing Taqua water filter cartridges every 3-4 months for optimal effectiveness.

The end-user can register online for automated delivery of replacement cartridges to their place, so they don't have to try and remember when the next one is due.

T-5



The multi award-winning T-5 is the pinnacle of technology

Taqua's T-5 offers effortless shifting between filtered water and regular tap water via an on-tap knob – and like all Taqua in-tap filtration models, it provides delicious pure water with free space under the sink. No bulky containers and no need to buy bottled water ever again.

The T-5 has a handy spray nozzle with an extendable hose for easy food prep and cleaning, and incorporates a newly designed shower function that is more accurate and efficient than ever before, with almost no unwanted splashing.

It's available in either chrome or matte black, to fit right into any home, office, or hospitality environment. You simply can't go past the T-5 for ease of use, quality, value and performance.

GOOD DESIGN AWARD 2020

DESIGN AWARD 2021

reddot winner 2021

Turn-of-a-knob on/off filtering convenience.

Latest generation shower flow efficiency.

Extendable hose for easy food prep and cleaning.

WELS Registration Number: T39504

Available in matte black as well as chrome.

T-3

Push-button ease to shift from tap water to filtered.

Choose from Normal flow or Shower mode.

Extendable hose for easy food prep and cleaning.

Taqua T-3 for ease and style

Taqua's reliable T-3 built-in filtration sink mixer provides pure, great-tasting filtered water with the push of a button. Simply press the button on the front of the tap to switch between filtered water and tap water. Filtered water is also available as a shower spray, to make washing fruit and vegetables easy. Just turn the T-3's dial on the tap handle to switch between Shower mode and Normal flow.
